

Summary of Key Changes for AFDP 3-85, *Electromagnetic Spectrum Operations*:

- Provided updates from last publication date of 30 July 2019
- Converted publication from DTM (Doctrine Topic Module) format to new chapter-book format
- Renumbered and renamed publication from AFDP 3-51, *Electromagnetic Warfare and Electromagnetic Spectrum Operations*, to AFDP 3-85, *Electromagnetic Spectrum Operations*, to align with the combining and renumbering of the corresponding Joint Publications from JP 3-13.1, *Electronic Warfare*, and JP 6-01, *Joint Electromagnetic Spectrum Management Operations*, to JP 3-85, *Joint Electromagnetic Spectrum Operations*, on 22 May 2020
- Ensured content reflected updated JP 3-85 information and terminology
- Emphasized how authorities flow from the Joint Force Commander through joint processes and further clarified the air component's roles, responsibilities, and capabilities for EMSO
- Reformatted the organization of the publication and rewrote content to ensure topics relating to Air Force operational level EMSO were clearly and logically presented
- Updated "Non-Kinetic Team" to "Information Warfare Team" IAW new AFTTP 3-1.AOC
- Removed "deny" as a specific effect and described it as a blanket term that includes the effects of destroy, degrade, disrupt IAW updates to JP 3-85
- Pulled previously repetitive information into appendices to provide easier references for Cyber and Space considerations, as well as reprogramming specifics
- Created new appendix detailing EW support agencies to provide a reference of EMSO SMEs; similar appendices exist in AFDP 2-0, *Intelligence*, and AFDP 3-60, *Targeting*
