THEATER SPACE OPERATIONS

Last Updated: 19 June 2012

The joint force air component commander (JFACC) is normally delegated [space coordinating authority](#) (SCA) and designated the supported commander for [space operations](#) by the joint force commander (JFC). In cases where the JFACC is other than an Air Force officer, the commander, Air Force forces (COMAFFOR) will fill designated billets within the JFACC staff to ensure proper employment of space assets. If a JFACC is not appointed, the JFC may delegate SCA to the COMAFFOR or another component/Service commander, or opt to retain SCA.
